SIDDHANT PARDESHI

Software Developer | Java, Spring Boot, SQL & AWS

Pune, Maharashtra, India | | siddhantpardeshi307@gmail.com

linkedin.com/in/siddhant-pardeshi-53788221a | github.com/siddhant-pardeshi

SUMMARY

Entry-level Computer Engineering graduate (SPPU, CGPA 8.13/10, GATE 2025 qualified) with hands-on experience building full-stack Java applications using Spring Boot, REST APIs, and MySQL. Comfortable across the stack from schema design to layered backend architecture (Controller-Service-Repository) to React front ends. Strong foundation in Core Java, OOP, DBMS, and Data Structures & Algorithms, backed by NPTEL (IIT Kharagpur) Elite certification and AWS Cloud Practitioner Essentials. Based in Pune and available to join immediately as a Software Developer or Backend Engineer in Pune.

TECHNICAL SKILLS

Languages: Core Java (Java 17), C, C++, JavaScript, SQL
Java & Backend: Spring Boot, Spring Data JPA, Hibernate, REST APIs, Maven, Layered Architecture (MVC)
Frontend: React.js, React Router, HTML5, CSS3, Bootstrap 5, Axios
Databases: MySQL, Schema Design, Relational Modeling, Query Writing
Cloud: Amazon Web Services (AWS)
Tools & Platforms: Git, GitHub, Eclipse, VS Code, Postman, Windows, Ubuntu
Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS

PROJECTS

BankNest | Full-Stack Banking Web Application

Java 17, Spring Boot, Spring Data JPA, MySQL, React, React Router, Axios, Bootstrap 5

- Engineered a full-stack banking application with secure user registration, login, and account management.
- Designed and implemented 8+ RESTful APIs in Java/Spring Boot for deposits, withdrawals, fund transfers, and transaction history.
- Used @Transactional to guarantee atomic, consistent balance updates across sender and receiver accounts during transfers.
- Built a responsive React frontend with a live dashboard, transaction history view, and beneficiary management.
- Structured the backend using a layered architecture (Controller-Service-Repository-Entity/DTO) for maintainability.

LifeDrop | Blood Donation Management System (Full-Stack Web Application)

Java 17, Spring Boot, Spring Data JPA (Hibernate), MySQL, React (Vite), React Router, Axios

- Built a 3-tier (Controller-Service-Repository) role-based platform connecting blood Donors, Receivers (hospitals), and Admins.
- Designed a normalized MySQL schema across Users, Blood Inventory, Blood Requests, and Donation Camps with enum-based statuses.
- Implemented core business rules in Java, including a 90-day donor eligibility check and atomic inventory deduction on request fulfillment.
- Developed 10+ REST APIs for authentication, inventory tracking, and a PENDING → APPROVED → FULFILLED request workflow.
- Built role-aware React dashboards (Admin/Donor/Receiver) with protected routes and centralized Axios API layer.

EDUCATION

Bachelor of Engineering, Computer Engineering — **Savitribai Phule Pune University (SPPU), Pune**
CGPA: 8.13 / 10 (First Class with Distinction) — *Dec 2021 – Jun 2025*
HSC (Class XII), Science – Vidya Valley North Point Junior College — 2021 | 74.77%
SSC (Class X) – D.I.C.'s English Medium School — 2018 | 94.40%

CERTIFICATIONS

- AWS Cloud Practitioner Essentials – Amazon Web Services (AWS) | View Certificate
- Java Full Stack Development (In Progress) – IT Vedant (Java, Spring Boot, MySQL, HTML/CSS/JavaScript, React)
- Programming in Java – NPTEL, IIT Kharagpur (Elite Certificate) | Jan–Apr 2024 | View Certificate
- 100% Job-Ready DSA Course – LearnYard | Jul 2024 | View Certificate

ACHIEVEMENTS

- GATE 2025 Qualified – Computer Science & Engineering | View Scorecard
- Autonomous UI Testing Hackathon – Award | View Certificate
- Fusion 2026 International Hackathon (SKNCOE) – Participant, Certificate of Achievement | Oct 2026 | View Certificate
- Selected for Vidyadhan Scholarship for Academic Excellence
- Selected for TFWS Scheme (Govt. of Maharashtra) – Tuition Fee Waiver, Engineering Admission
